
ONLINE BOOK Look Smarter Than You Are With Oracle Enterprise Reporting Cloud

This is not a book with specific EPBCS (Oracle Enterprise Planning & Budgeting Cloud) content, and there is not a single page devoted to explaining any of the models ... EPBCS, as such, has no structure or outline, and it does not need to be studied or used. EPBCS is simply a model that can be used to do tasks or tasks related to budgeting and planning. EPBCS is a model (by default) that does not require knowledge of table structures, charts, etc. You will need to learn a few things when you start using EPBCS, but this should not be a problem for experienced users or database administrators.
